2026 *Wedding*

PACKAGES

Securing Your Date

Determine availability of your wedding date by reaching out personally. Weddings are scheduled Wed-Sat, and we do our best to limit weddings to only four per week

CHOOSE A WEDDING PACKAGE.

Choose one of our curated packages from this price list, or I will joyfully help you customize a package for your individual needs.

SIGN A CONTRACT.

A signed contract and payment is required to officially book your date. Your contract will specify information related to hosting your wedding at our venue, and your invoice will contain what is included in your wedding package.

You'll receive your contract by email after we've verified the availability of your date and narrowed down your selections. Feel free to review your contract and ask questions for up to three days before signing electronically.

PAYMENTS AND REFUND POLICY

After signing your contract, we'll send an invoice for the first $\frac{1}{3}$ of your wedding invoice. The next $\frac{1}{3}$ payment is due 60 days before your wedding and the balance is due 14 days before the wedding.

While wedding packages can be modified along the way, they are still subject to our no-refund policy listed below in addition to any further clauses in your wedding contract.

REFUND POLICY

IMPORTANT: The wedding market is unique with the timeline in which couples plan and secure dates. All payments are non-refundable, regardless of the reason. Your payments are applied to event planning, maintaining our venue in anticipation of your event, as well as the actual services provided on wedding day.

We are very happy to reschedule your wedding one time based on availability, but there are never any refunds.

Life happens. This is why I recommend Eventsured for the unexpected. We are not affiliated with them in any way, but they are the best event insurance company I've found to date.
